Forward Looking Statements

The foregoing contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements are not historical facts and include expressions about management's confidence and strategies and management's expectations about new and existing programs and products, acquisitions, relationships, opportunities, taxation, technology, market conditions and economic expectations. These statements may be identified by such forward-looking terminology as "should," "expect," "believe," "view," "opportunity," "allow," "continues," "reflects," "typically," "usually," "anticipate," or similar statements or variations of such terms. Such forward-looking statements involve certain risks and uncertainties. Actual results may differ materially from such forward-looking statements. Factors that may cause actual results to differ materially from those contemplated by such forward-looking statements include, but are not limited to: a severe decline in the general economic conditions of New Jersey and the New York Metropolitan area; larger than expected reductions in our loans originated for sale or a slowdown in new and refinanced residential mortgage loan activity; unexpected changes in market interest rates for interest earning assets and/or interest bearing liabilities; government intervention in the U.S. financial system and the effects of and changes in trade and monetary and fiscal policies and laws, including the interest rate policies of the Federal Reserve; our inability to pay dividends at current levels, or at all, because of inadequate future earnings, regulatory restrictions or limitations, and changes in the composition of qualifying regulatory capital and minimum capital requirements (including those resulting from the U.S. implementation of Basel III requirements); declines in value in our investment portfolio, including additional other-than-temporary impairment charges on our investment securities; unexpected significant declines in the loan portfolio due to the lack of economic expansion, increased competition, large prepayments or other factors; unanticipated credit deterioration in our loan portfolio; higher than expected increases in our allowance for loan losses; unanticipated loan delinquencies, loss of collateral, decreased service revenues, and other potential negative effects on our business caused by severe weather or other external events; higher than expected tax rates, including increases resulting from changes in tax laws, regulations and case law; an unexpected decline in real estate values within our market areas; higher than expected FDIC insurance assessments; the failure of other financial institutions with whom we have trading, clearing, counterparty and other financial relationships; lack of liquidity to fund our various cash obligations; unanticipated reduction in our deposit base; potential acquisitions that may disrupt our business; legislative and regulatory actions (including the impact of the Dodd-Frank Wall Street Reform and Consumer Protection Act and related regulations) subject us to additional regulatory oversight which may result in higher compliance costs and/or require us to change our business model; changes in accounting policies or accounting standards; our inability to promptly adapt to technological changes; our internal controls and procedures may not be adequate to prevent losses; claims and litigation pertaining to fiduciary responsibility, environmental laws and other matters; the inability to realize expected revenue synergies from recent acquisitions in the amounts or in the timeframe anticipated; inability to retain customers and employees; lower than expected cash flows from purchased credit-impaired loans; cyber attacks, computer viruses or other malware that may breach the security of our websites or other systems to obtain unauthorized access to confidential information, destroy data, disable or degrade service, or sabotage our systems; and other unexpected material adverse changes in our operations or earnings.

A detailed discussion of factors that could affect our results is included in our SEC filings, including the "Risk Factors" section of our Annual Report on Form 10-K for the year ended December 31, 2012. We undertake no duty to update any forward-looking statement to conform the statement to actual results or changes in our expectations. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements.

(1) All per share amounts have been adjusted retroactively for stock splits and stock dividends during the periods presented. Data for the years prior to 2001 in the table above exclude certain prior year results for merger transactions accounted for using the pooling-of-interests method.

(2) Previously reported results for 2011, 2010, 2009 and 2008 have been revised to reflect an increase in non-interest expense, which after taxes, reduced net income by \$1.1 million, \$1.2 million, \$1.2 million and \$1.3 million, respectively, and reduced basic and diluted earnings per common share by \$0.01 for each of these years. Total assets and the other statistical data presented in the table have been revised accordingly.

(3) Net income includes other-than-temporary impairment charges on investment securities, net of tax benefit, totaling \$3.0 million, \$12.2 million, \$2.9 million, \$4.0 million, \$49.9 million, \$10.4 million, and \$3.0 million for the years ended 2012, 2011, 2010, 2009, 2008, 2007, and 2006, respectively.
